

## **2.1 Environmental Policy Statement**

Redwood Limited recognises the importance of environmental protection and is committed to operating its business responsibly and in accordance with all environment regulations, legislation and approved professional codes of practice relating to our business activities. Following our 2015 move to new offices in Bankside, Southwark, we are continuing with our on-going process of service improvement, product innovation and staff well-being.

As part of the Omnicom Group our strength lie in creativity, collaboration and respecting differences. We are committed to working to achieve social and environmental progress for our clients, our people, our shareholders and the communities around us.

In addition we are committed to the prevention of pollution and reducing our effect on the environment. In order to meet this commitment we will:

- meet all necessary legislative, regulatory and consent requirements which relate to our business
- keep abreast of environmental issues and, in particular, those which are of direct relevance to our business
- we will continue to raise awareness through communication, discussion and training, to encourage good and responsible practice in our employees, both at work and home
- operate a thoughtful purchasing policy by selecting wherever practical, materials and services which are less damaging to the environment
- set environmental objectives and targets based on continual improvement, and look to monitor results and review on a regular basis at management meetings
- Implement and maintain "chain of custody" for PEFC / FSC certified material assigned across all of our projects

This policy is communicated to all employees, suppliers and sub-contractors and is made available to all interested parties, via our website and upon request.

All personnel understand their obligations under this policy statement. Redwood Limited constantly monitors and reviews its environmental performance and this Environmental Policy Statement is in place to ensure its continuing sustainability and improvements.

Signed,

Sara Cremer - Chief Executive
